ABOUT ME

I am Bui Xuan Thang, a fourth-year student at Ho Chi Minh City University of Technology (Hutech). I have a great passion for programming and I am deeply interested in creating applications and websites that people can use to meet useful needs in their lives. I have worked on group projects such as an eyeglass business website, a real-time chat application.

PROJECTS

GLASSES BUSINESS

02/2024 - 11/2024

- This is a website where customers can search and select their favorite glasses to add to their shopping cart.
- In this project, I am responsible for searching, filtering products, adding products to the shopping cart, payment and management features of the website (including product management, user management, drawing charts to visualize monthly revenue statistics). In addition, I also participate in database design.
- Technologies used: .Net Core MVC, Bootstrap, Ajax, Docker, C#
- Project details: https://github.com/itstee2k3/da_itweb

REAL TIME CHAT APPLICATION

02/2025 - 04/2025

- This is an application page where people can chat with each other in individual or group chat.
- A real-time chat application built for both individual and group communication, with full backend support and real-time data synchronization using SignalR.
- I was responsible for implementing features such as friend requests, user search, group creation, image sharing, and updating group avatars and names. I also developed the backend API using .NET to serve data and functionalities for the Flutter client.
- Technologies used: .Net Core API, Dart, MySQL, C#
- Project details:
 - Frontend: https://github.com/itstee2k3/vjp_flutter
 - Backend: https://github.com/itstee2k3/vjp_api

SKILLS

- Communication Skills
- Teamwork Skills
- Creative Thinking

EDUCATION

Hutech University

2021 - 09/2025 (EXPECTED)

- Outstanding Student (2024)
- Hutech Code War Encouragement Prize (2024)
- GPA: 3.53
